Professional Experience

NielsenIQ (NIQ) Vadodara, Gujarat
Data Science Intern *Nov 2025 – May 2026*

- Engineered an end-to-end machine learning pipeline to predict urban road quality across 2.1 million geospatial segments, deploying an XGBoost classifier that achieved **85.88% accuracy**.
- Developed a scalable data processing engine using Python, GeoPandas, and OSMnx to automate road network extraction and UTM-projected geometric buffering with **95% precision**.
- Architected an interactive **Streamlit web dashboard** integrating Folium to visualize predictive analytics, statistical metrics, and dynamic geospatial mapping.

BrainyBeans Ahmedabad, Gujarat
Data Science Intern *May 2025 – Jun 2025*

- Built and optimized regression models for smart-building infrastructure, leveraging Scikit-learn to achieve an **R^2 score of 0.82**.
- Authored data preprocessing scripts to execute rigorous feature engineering and optimize model hyperparameters.

Key Projects

NextStep AI - AI-Powered Career Planning Platform Live Demo
Next.js, React, Groq API, PostgreSQL, Prisma

- Built an adaptive, two-phase **AI career quiz** using the **Groq API (Llama-3)** that mimics a human advisor by dynamically generating custom follow-up questions based on the user's initial answers to provide highly personalized career recommendations.
- Engineered a universal **"Job Finder" aggregator** using the **JSearch API** to fetch and consolidate live job openings from major platforms like LinkedIn, Indeed, and Internshala into a single unified dashboard, drastically streamlining the job hunting process.
- Developed an interactive **"Career Tree"** and **intelligent resume parser** in **Next.js and PostgreSQL**. Transformed AI data into visual, animated roadmaps using **React Flow and Framer Motion**, and utilized document extraction tools (pdf-parse) to instantly auto-fill user profiles.

Wingman-AI - Real-time AI Desktop Assistant GitHub
Electron, React, TypeScript, Gemini 2.5 Flash-Lite API, Ollama

- Engineered a real-time, cross-platform **AI desktop assistant** using **Electron, React, and TypeScript**, featuring a **global-hotkey-triggered invisible overlay** for seamless, unobtrusive usage during live coding interviews and meetings.
- Integrated **multimodal AI pipelines** utilizing the **Gemini 2.5 Flash-Lite API** to rapidly process live screen captures and microphone audio, consistently generating highly accurate, context-aware solutions in $<$ **2 seconds**.
- Architected a **privacy-first multi-provider routing system** that prioritizes secure, offline local execution via **Ollama LLMs**, intelligently falling back to cloud-based infrastructure to optimize performance and data privacy.

StratifyAi - Strategic Agentic Thinking Assistant GitHub
Generative AI, Electron, Node.js

- Developed a local-first **agentic AI desktop application** utilizing granular execution controls, reducing LLM token consumption by **70%** over standard linear chains.
- Built a **multi-path reasoning architecture** capable of parallel Analytical, Creative, and Practical context generation from automated CSV data ingestion.

Technical Skills

Generative AI & LLMs: Agentic Workflows, RAG Pipelines, LangChain, Prompt Engineering, Gemini, Groq, Llama
Full-Stack AI Development: React, Next.js, Node.js, FastAPI, Python, Prisma ORM, Electron, REST APIs
Cloud, Databases & Tools: PostgreSQL, MongoDB, Vector Databases, Docker, AWS, Git/GitHub

Education

Charotar University of Science and Technology (CHARUSAT) Gujarat, India
B.Tech in Computer Science and Engineering — CGPA: 8.6/10 *May 2026*

Publications, Achievements & Certifications

- **Publication:** *"Enhancing Brain Tumor Detection Using YOLOv12"* – Published in IEEE 3rd International Conference on Inventive Computing and Informatics (ICICI), 2025. View Paper
- **Top 50, Odoo Hackathon 2025** – Engineered GlobeTrotter, a full-stack travel planner (React, TypeScript, Node.js, MongoDB) with interactive itineraries and dynamic budget management.
- **Google Advanced Data Analytics** – Professional Certificate
- **Microsoft AI and ML Engineering** – Professional Certificate
